## WYNN'S SHIELD

Wynn's® Wynn's Shield is a patented liquid chemical spray-on solution that is scientifically engineered to strengthen glass and repel water. All windshields have inherent defects and flaws at the microscopic level that can weaken the glass structure over time and make the windshield susceptible to chips, cracks, and breaks. Wynn's® Wynn's Shield helps seal these imperfections by covalently bonding to the glass and cures to a durable, invisible finish, helping add a layer of protection to the vehicle's windshield.
