

ENGINE

SUPREME ENGINE CLEAN

Wynn's® Supreme Engine Clean is the all-in-one solution to quickly and safely dissolve harmful sludge and contamination from vital engine parts.

Supreme Engine Clean was developed to give service departments a simple and effective way to clean the engine's crankcase as part of a regular oil change service. Using Supreme Engine Clean improves compression by removing even the most stubborn engine oil deposits and buildup with no separate bottles and no machine.

Unlike competitive services which can take upwards of two to four hours to complete, an oil change service with Supreme Engine Clean works in under an hour, with fewer steps to provide service departments more efficiency in an all-in-one solution.

FEATURES AND BENEFITS:

- ✓ Cleans Heavier Deposited Engine Crankcases
- ✓ Frees Stuck Piston Rings
- ✓ Reduces Stuck Ring Related Oil Consumption
- ✓ Neutralizes Corrosive Acids within Engine
- ✓ Increases Engine Performance
- ✓ Provides a Cleaner Engine to Allow New Oil to Work More Effectively

SPECIFICATIONS:

Product No: ZW36632

Net Contents: 1 QT (946 mL)

Case Quantity: 12 Each
