

# TRANSMISSION

## CONTINUOUSLY VARIABLE TRANSMISSION ENHANCER

Wynn's® Continuously Variable Transmission Enhancer eliminates shudder, reduces fluid oxidation, and provides metal to metal friction protection. Offers extreme pressure and anti-wear performance to prevent costly repairs and extend the life of the transmission.

Protect vehicle's transmission by maintaining fluid performance. Stabilize Continuously Variable Transmission Fluid when completing a fluid exchange service or use as part of routine maintenance. Do NOT mix with any other fluid additives.

### FEATURES AND BENEFITS:

- ✓ Enhances Extreme Pressure and Anti-Wear Protection
- ✓ Protects Against Metal to Metal Friction
- ✓ Eliminates Shudder
- ✓ Reduces Fluid Oxidation

### SPECIFICATIONS:

Product No: ZW66001

Weight: 11 OZ (325 mL)

Case Quantity: 24 Each
