

DRIVELINE

PNEUMATIC DIFFERENTIAL MACHINE

The Wynn's Pneumatic Differential Machine provides an efficient way to remove and replace used gear oil from the driveline system using shop air between 80-90 PSI. The Wynn's Pneumatic Differential Machine allows for a more complete drain of used gear oil fluid and reduced contamination of the new gear fluid, improving the life of the driveline and its' components, keeping the driveline running smoothly.

FEATURES AND BENEFITS:

- ✓ Shop-Air Powered
- ✓ Two Heavy-Duty, High-Capacity Pumps with Individual Pressure Control for Maximum Efficiency
- ✓ Quickly Change Fluids for Differentials, Manual Transmissions, and Transfer Cases
- ✓ Fluid Rack can Accommodate an 128 oz Container or Two 64 oz Containers
- ✓ 5 Gallon Waste Fluid Container
