

BRAKE

DOT 4 BRAKE FLUID

Brake fluid may oxidize and degrade over time. This may lead to poor brake performance, expensive repairs, and even brake failure. Replace used DOT 3 and DOT 4 brake fluid with Wynn's DOT 4 Brake Fluid, which lubricates and protects the rubber and metal components of the braking system and provides superior protection against vapor lock by maintaining a high boiling point in service.

FEATURES AND BENEFITS:

- ✓ Lubricates Seals Inside the Master Cylinder & Calipers, the Wheel Cylinders, and the Parts Inside the ABS Pump
- ✓ Features a Minimum Boiling Point (ERBP) of 446°F
- ✓ Prevents Corrosion
- ✓ Improves Seal Life and Performance
- ✓ Controls Viscosity Over a Wide Temperature Range
- ✓ Controls Proper Seal Swell
- ✓ Conforms to Federal Motor Vehicle Safety Standard No. 116, SAE J1704, and ISO 4925

SPECIFICATIONS:

Product No: ZW35401A
Net Weight: 1 QT (946 mL)
Case Quantity: 12 Eaches
